## **Coaching Philosophy:**

First and foremost, you must have fun when playing a sport. I expect a lot from my team and will push for them to succeed; we will work hard, but also enjoy the game. This is a competition, and we must come out on top; we learn from the mistakes and work harder on our strengths. You will see me shout, cheer, get angry and jump with joy, and every emotion will be aimed to help each one of my players reinforce their confidence and strive at soccer, or whatever goal they want to accomplish.
